Dissecting a Data Breach and Mitigating the Risks

May 10, 2017
Milwaukee, WI

Agenda

9:00-9:30 a.m.

Registration

9:30-11:45 a.m.

Mock Data Breach

In this session, we will walk through a mock data breach. The presentation will provide a wealth of information on what to expect after a security incident, including legal risk analysis, cooperation with law enforcement investigations and conducting information technology forensic investigations.

- Tom Still, President, Wisconsin Technology Council
- Mark Shelhart, Senior Manager, Incident Response & Forensics, Sikich
- Jeff Jensen, Partner, Husch Blackwell

11:45 a.m.-1:00 p.m.

Lunch and Keynote Speaker

V. Miller Newton, CEO of PKWARE, will discuss how to identify vulnerable data and close security gaps with encryption technology and other methods.

1:00-1:15 p.m.

Break

1:15-3:30 p.m.

Mitigating the Effects of Data Breaches Before They Happen

What steps can companies take to mitigate the risks associated with data breaches before they happen? We will discuss data breach response planning, cyber insurance, outsourcing IT security and smart contracting to reduce exposure.

- Gina Carter, Partner, Husch Blackwell
- Derek Lacznik, Account Executive and Director of Cyber Practice, M3 Insurance
- Mindi Giftos, Partner, Husch Blackwell
