Federal Judge Refuses to Dismiss Action Seeking to Classify Student-Athletes as Employees

Wednesday, September 1, 2021

A case that may signal the continued erosion of the amateur status of college student-athletes will continue as the action in Bajer v. NCAA has survived the defendants' motion to dismiss the complaint.

U.S. DISTRICT COURT Judge John Padova allowed the six student-athlete plaintiffs' claims against Villanova, Fordham, Sacred Heart, Cornell and Lafayette to proceed as he concluded the schools had failed to show at this stage of the litigation that the student-athletes were not employees. The student-athletes brought their claims as a proposed collective or class action. They seek to be classified as employees pursuant to the Fair Labor Standards Act (FLSA) and state labor laws and be entitled to paid minimum wage.

Judge Padova’s 90-page order discussed familiar arguments made by the plaintiffs' attorney Paul McDonald in Bajer v. NCAA, a 2016 case decided by the U.S. Court of Appeals for the Seventh Circuit. In Bajer, the Seventh Circuit rejected the “employee” argument, concluding the amateur status of college athletes prevented their classification as employees of their individual schools. Judge Padova rejected the schools’ argument that the student-athletes are exalted as students and do not perform functions of an employee.

What Does It Mean If Athletes are Employees?

1. Title IX clearly implicated
2. Where will the money come from?
3. Next battleground: Covered by workers compensation?
Contract Negotiation

- According to an ESPN analysis of financial records of athletics departments at public universities, FBS programs spent more than $533.6 million in dead money in an 11-year period from Jan. 1, 2010, to Jan. 31, 2021.

- Remarkably, the dead money total is actually much more than that. The financial records did not include payments for many of the coaches who were fired during or after the 2020 football and 2020-21 basketball seasons. In football alone, FBS schools committed another $107.6 million in severance pay before mitigation to fired coaches and their staffs in 2020.
